

New **digital** self-adhesive paper:

Lasermatt HS-FSC

Our Digital self-adhesive range now includes a matt-coated label face suitable for high-speed, dry toner laser printers.

Lasermatt HS-FSC is specifically optimized for product labelling and promotional labels. It's also a good choice for a wide variety of applications requiring matt-finished custom labels that support variable information plus a fine, high-quality image.

Lasermatt HS-FSC completes UPM Raflatac's existing Digital paper range. You now have a choice of uncoated (Laserfine HS-FSC), coated matt (Lasermatt HS-FSC), coated mid-gloss (Lasersilk HS-FSC) or coated high-gloss (Lasergloss HS-FSC) label faces. Your customers simply select the surface to be labelled and decide the label finish.

Combination	Sales code	Size (cm)	Packaging	MOQ Sheets	Sheet EAN code Solid, printed backing (W3)
Lasermatt HS-FSC	GLY/SPA3/14/W3	32x45	Box – 250sh	5 000	7172736
			Box – 100sh	5 000	7172743
